Organizations will need to access a wider range of business and technology skills, at an ever faster pace. This is why, in Engineering, we continuously update and strengthen our people's training.

WORK WITH US

Create your future NOW

1,500+
hires in 2022

98%
of apprenticeship contracts are
transformed into permanent contracts

14 Countries
with local Engineering's offices

2022

Engineering is among the TOP 25 best
companies in Italy to develop your
career path, according to LinkedIn.

Our ambition is to use **technology** not only to evolve
businesses and organizations, but also as a **social driver** to
perfectly balance economic and sustainability objectives.

Maximo Ibarra

CEO & General Manager, Engineering Group
